About **AYRTON MIRANDA Studio**

Based in Guadalajara, Jalisco Ayrton Miranda Studio is a globally oriented design practice focused on industrial product design and creative consulting. Founded by the brothers Alán and Ayrton Miranda, inspired by an always-evolving world, the studio pays meticulous attention to methods and details, combining curiosity and innovation as a means to explore and bring ideas to life.

Our experience in design has taken us to participate at forums and exhibitions in México and abroad. Three consecutive years (2018, 2019 and 2020) finalists at Dimueble Furniture Contest organized by the Furniture Association of Jalisco, México.

In early 2022 our Scaffolding chair was awarded silver Medal at the 26th edition of CETEM Design Award organized by the Centro Tecnológico del Mueble y la Madera de la región de Murcia, España.

In Spring 2019 we debuted at Salone Internazionale del Mobile. Milano. exhibiting at the 22nd edition of SaloneSatellite, returning in 2023 for the 24th edition of SaloneSatellite.

About The Fusilli Chair

Fusilli Collection: The FUSILLI chair designed by Alán & Ayrton Miranda offers a unique and cheerful take on outdoor furniture, designed for exteriors but equally suited to any setting for pure relaxation. FUSILLI combines textile seating with an aluminium frame to create a visually appealing and charming collection suitable for relaxation and dining. Its backrest design functions as a cable-stayed bridge, generating an eye-catching and characteristic aesthetic, while being very ergonomic and comfortable.

Made for Mexican furniture brand Rattan de Guadalajara, Rattan's outdoor furniture line features cutting-edge designs and materials, and welcomes the Fusilli Chair to the family. This outdoor chair, constructed entirely of aluminum, is a unique design piece inspired by Italian elegance, the curved shape of fusilli pasta, and a touch of Mexican joy and spontaneity.

We are very proud to present The Fusilli Chair by Ayrton Miranda Studio together with Rattan de Guadalajara at the 24th edition of *SaloneSatellite* during the Salone Internazionale del Mobile in the city of Milan, Italy, from April 18th to 23th, 2023.

About **La donna, l'uomo e il Papa Lamps**

La donna, l'uomo e il Papa collection are a sophisticated version of the portable LED lamp and represent a totem of contemporary life.

The lamps are made of anodized aluminum in various colors, inspired by art, Italian culture, and design, and feature a semi-matte finish that adds a soft, tactile quality to the wireless design.

The sleek LED lamps are designed by Alan & Ayrton Miranda for the twenty-first century and can be charged via rechargeable battery, providing up to 10 hours of light. The lamps are both portable and elegant, resembling a modern-day candle and creating a gentle atmosphere.

About *por*TABLE

The *por*TABLE table collection exudes a sophisticated and modern appearance with its smooth and curved yet simple lines. The entire *por*TABLE collection is based on the idea of mobility and versatility. The parts conforming the table fit inside one powder coated aluminium tube that serves as a leg; supporting a modular, magnetically aligned, table top system made of solid wood and thin 8mm birch plywood surfaces. The base is composed of a single element, constructed from several layers of solid wood.

Exquisitely simple, refined and contemporary, the *por*TABLE collection is as functional and long-lasting as it is visually appealing.
